

UNIVERSAL WATER PURIFIER

HOUSING: Food grade Polypropylene or 304 surgical stainless steel

CARTRIDGE: Full Spectrum six stage washable ceramic cartridge

FITTINGS: Lead free brass shut-off valve and connector. Ice-maker flex hoses. Lead free brass T-connector

DIMENTIONS: 12 inches tall and 5 inches wide at base

SPECS: Assembled by hand. Special food grade NSF certified lubricant for O-ring. Comes complete with cartridge, all connectors and housing wrench.

Generic white box. The Full Spectrum cartridge lasts up to 18 month. Cartridge pre-filters to 0.3 microns, then removes 100% of bacteria and microbes, then an ion exchange media to remove over 98% of lead and other heavy metals, then a fine compressed carbon block for chlorine and chemical removal. Does NOT remove the natural minerals, to keep the water pH neutral and good tasting.

WARRANTY: Full 50 years conditional warranty.
